

Digital Library & AIRE

PhD students -

Michele Visentin

michele.visentin@unipd.it

Padova, 9 dicembre 2014

■ I step

First part

Introduction to library services and resources.
Bibliographic research.

Second part

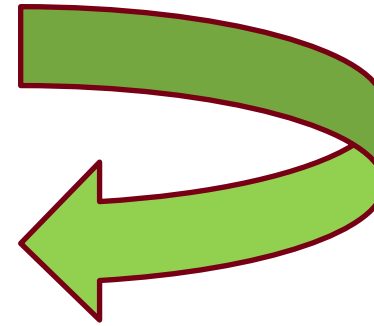

Introduction to AIRE. Disciplinary databases

■ II step

Scientific publishing and open access. Padua@research.
Copyright . Bibliometric indexes?

■ III step

Bibliographic citations and citation styles.
Reference management software. Refworks, even with Latex.

in the library feedback

*Which session
would you like to
be dealt with in
more depth?*

Digital library,
Refworks
Bibliometrics

In this course we'll see how to:

search online resources – in order to download those ones available at University of Padova's libraries.

The main tools for the bibliographic search are:

- **Catalogs:** A list of the documents (books, ebooks, journals, ejournals, multimedia...) **possessed** by one or more connected libraries, containing information about the physical/digital location of the documents and many other services.

– Databases:

1. Bibliographic databases: organized digital collections of references to academic literature, especially journal and newspaper articles (e.g. [Scopus](#), [Population Index](#), ...);

2. Full-text databases: collections where you can find the whole text of the document you are looking for (e.g. [Eurostat](#), [EconLit](#), [Socindex](#) ...).

BDP (Biblioteca digitale Padova) provides you with a single access point to all the digital resources and the related services of UNIPD libraries (proxy, RefWorks, document delivery, interlibrary loan, courses...)

<http://bibliotecadigitale.cab.unipd.it/en/>

Try the [EasySearch](#) service of BDP!
It's the easiest way to find electronic resources.

Are you looking for ebooks or articles about your thesis argument? Do you want to check if the full-text of a specific article is available online? Looking for a Doctoral dissertation?

Select the proper field of *EasySearch* and make your search.

Let's try to find this citation:

Freeman, Alan «The Poverty of Statistics and the Statistics of Poverty” in *Third World Quarterly* Dec2009, Vol. 30 Issue 8, pp. 1427-1448

Are you looking for articles about *statistics of corruption*?
Select the *Articles & more* field, then the disciplinary area
and finally digit one or more key-words.

Easysearch

Books, Journals Citations **Articles and more** Theses Digital collections

Select the subject

Subject area:

Word(s) or phrase:

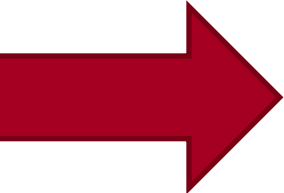

[For a detailed searching go to AIRE Portale \(ITA\)](#)

Use the «TAX» cluster on the right column and have a look at the record:

Anna Alon, Amy M. Hageman
“The Impact of Corruption on Firm Tax Compliance in Transition Economies: Whom Do You Trust?” in *Journal of Business Ethics* September 2013, Volume 116, Issue 3, pp 479-494

And now download the full-text of this article.

If you need to make a more specific and accurate search enter the **Portale AIRE** from the *Articles and more* field of EasySearch

Select the subject

Subject area:

Word(s) or phrase:

[For a detailed searching go to AIRE Portale \(IIA\)](#)

You can use AIRE also to find all the electronic resources available for your disciplinary area. Click on **Trova risorse** and search them by title or categories.

For the **Economic & Statistics area** you have access to 54 electronic resources.

For the statistic-mathematic point of view have a look at:

[Current Index to statistics](#): a bibliographic index to publications in statistics and related fields. References are drawn from core journals that are fully indexed and non-core journals from which articles are selected that have statistical content.

[MathSciNet](#): a comprehensive database covering the world's mathematical literature since 1940. It provides web access to the bibliographic data and reviews of mathematical research literature.

[INFORMS](#) (Institute for operations research and management sciences): the website of the largest society in the world for professionals in the field of operations research (O.R.), management science, and analytics.

[JSTOR - mathematics & statistics](#): a not-for-profit organization with a dual mission: to create and maintain a trusted archive of important scholarly journals, and to provide access to these journals as widely as possible.

For pure statistics database:

[Istat](#): the website of the Italian National Institute of Statistics, which represents a strategic resource for statistics available for public access.

[Eurostat](#): it gathers and analyzes figures from the different European statistics offices in order to provide comparable and harmonised data. The data cover the European Union, its member states, and its partners.

[OECD iLibrary](#): the online library of the Organisation for Economic Cooperation and Development (OECD) featuring its books, papers and statistics. It also contains documents published by the International Energy Agency (IEA), the Nuclear Energy Agency (NEA), the OECD Development Centre, PISA (Programme for International Student Assessment), and the International Transport Forum (ITF).

And don't forget [ONU](#) web pages!

For demographic data and analysis:

[LEXIS NEXIS Academy](#): database containing thousands of publications which provide extensive sources of information in the areas of law, news, business, finance, government, technology and other subjects.

Istat (*above mentioned*).

Again ONU webpages.

For economic, financial and business area:

[AIDA](#): it contains comprehensive information on companies in Italy. You can use it to research individual companies, search for companies with specific profiles and for analysis.

LEXIS NEXIS Academy (*above mentioned*)

[Sole 24 Ore](#): it contains the full text archive of *Il Sole 24 Ore* from 1984 to yesterday's issue, together with reviews and databases published by the Sole 24 Ore Press.

[Business Source Premiere](#): it indexes full text scholarly journals and business periodicals covering accounting, management, economics, finance, international business, and more.

[EconLit](#): The American Economic Association's electronic database, this is the world's foremost source of references to economic literature.

For the socio-political area:

[SocINDEX](#): it is the world's most comprehensive and highest quality sociology research database. SocINDEX offers coverage from all subdisciplines of sociology. Also includes full text for books, monographs and conference papers.

[Rivisteweb Mulino](#): the electronic archive of journals of publisher *Il Mulino*. In the database are available since 1997, history, philosophy, linguistics and literary criticism, music, psychology, social-political argument, economic and legal journals.

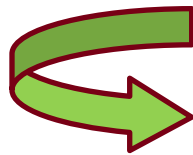

[ESSPER](#): Search Italian serials of economics, law, history and social sciences.

Another comfortable tool to see all the resources selected by the Library System for single disciplinary areas is the Digital Library's

[Resources shelf.](#)

With this service you can select the electronic resources also by language and by type (fulltext databases, eprints, multimedia, thesis, online newspapers, search engines...)

Select your disciplinary area and see the linked resources.

Scaffale delle risorse / The resources shelf

[+](#) [Share](#) | [f](#) [e](#)

Did you find interesting articles using Padua Digital Library or AIRE? You don't need to be on-campus to download their full-text.

With the [auth-proxy](#) service you have access to the electronic resources even off-campus, from Italy and abroad.

You are just requested for an institutional email address, like *@studenti.unipd.it* or *@unipd.it*.

But please fulfil the [use policy](#)!

If these conditions are violated, publishers can prevent access to the resources of the entire community of users of the University.

Access to some Digital Library's resources as certificated user through [Single Sign-On](#) (SSO).

The screenshot shows a website interface with a dark red header. In the top right corner, there are links for "Accessibilità", "Help", "Autenticati", "Italiano", and "English". Below these is a search bar with "A+ A-" and "Cerca nel sito" and a "Cerca" button. A white modal window is centered on the page, containing two buttons: "SSO Login" and "Amministrazione del sito". Below these buttons is a large "SSO" logo in red and orange, followed by a blue link "Entra qui". The background of the website is partially visible, showing a dark red footer with navigation links: "Corsi", "Prestito interbibliotecario", "Fornitura documenti", "Visitatore", "Staff", "Il Centro di Ateneo per le Biblioteche", "Il Comitato Tecnico Scientifico", and "Progetti".

As certified, you can have access to Scopus, Ebsco publishing and Science Direct, and find useful informations about copyright, impact factor, citation styles...

The screenshot shows the library website for the University of Padua. At the top, there are logos for the University of Padua and SBA (SISTEMA BIBLIOTECARIO DI ATENEIO). Below the logos is a navigation menu with four main categories: 'Using the library', 'What are you looking for?', 'About you', and 'About us'. Each category lists various services and resources. Below the navigation menu is a breadcrumb trail: 'You are here: Home → multibab'. The main content area is divided into four sections: 'STUDENTS', 'SCHOLARS', 'VISITORS', and 'Using the library...'. Each section contains a list of links and resources. The 'STUDENTS' section includes links for 'Finding...' and 'Using the library...'. The 'SCHOLARS' section includes links for 'Finding...' and 'Using the library...'. The 'VISITORS' section includes links for 'How to...' and 'Getting started at Padova University'. The 'Using the library...' section includes links for 'Finding...' and 'Using the library...'. The 'How to...' section includes links for 'Getting started at Padova University'.
