All Padua University libraries belong to the [University Library System](#) (*Sistema bibliotecario di Ateneo* = SBA) which coordinates libraries' main activities and services.

The screenshot shows the website header with the University of Padua logo and the SBA logo. Below the header is a navigation menu with four columns:

 - EasySearch
 - Off-campus connection

The main heading is "The University Library System" with social media share icons. Below it, the text reads: "Filed under: [Sistema bibliotecario di ateneo](#), [library system](#), [CTS](#)".

The introductory paragraph states: "The University Library System includes the library resources and services of the Padova University. The mission of the University Library System is:"

- to preserve, update and promote the use of the University bibliographic and documentary collections
- to guarantee the widest possible e-access to scientific information through the University Digital Library
- to support University research and teaching activities

The text continues: "The University Library System is composed of:"

- [University Libraries Centre \(CAB\)](#)
- [Digital Library](#)
- [Library clusters](#)
- [Libraries \(ITA\)](#)

At the bottom, a note states: "The [regulation of the University Library System](#) was approved by Padova University Board of administration and by the Academic Senate, respectively on the 18/06/2012 and 09/07/2012."

SBA develops advanced services such as:

- Online Public Access Catalogue (*OPAC*);
- Access to scientific databases;
- Availability of electronic journals;
- Inter-library loan and Document delivery service;
- Bibliographic management (*RefWorks*);
- Off-campus access to the library resources (*auth-proxy*);
- Introduction courses and personal reference.

Padua University Library system is organized in networks of libraries (*POLI*) according to the different scientific areas.

The network of **Social Sciences Libraries** is called *Polo di Scienze sociali* and includes the following libraries:

- Biblioteca di Scienze Politiche - Political Sciences Library
- Biblioteca di Diritto Comparato - Comparative Law Library
