

PhD School in Statistics – XXIII Cycle

Specialistic Course 2008

ROBUST INFERENCE

by

Laura Ventura

*Department of Statistical Sciences
University of Padova*

Topics include

Statistical functionals, influence function, classes of robust estimators (M, L and Hampel estimators) and their approximate distributions, robustness and hypothesis testing, robust inference for regression models, robust pseudo-likelihood functions

Calendar

Thursday	October 30/2008	10.30 – 12.30	Aula Uggé
Friday	October 31/2008	10.30 – 12.30	Aula Uggé

*Prof. Alessandra Salvan
School Director*
