Banche dati

Se stai cercando articoli di riviste, capitoli di libri, dati statistici, bilanci di aziende, ecc. consulta le banche dati acquistate dall'Università di Padova o disponibili gratuitamente in rete.

Seleziona dal menu l'area di tuo interesse o il tipo di risorsa che stai cercando. Per ogni opzione potrai trovare una selezione di:

- Banche dati contenenti informazioni dettagliate (titolo, autore, editore ecc.) su articoli di riviste e testi di ambito statistico. In molti casi potrai accedere ai documenti completi (full text).
- Banche dati contenenti dati statistici e demografici, bilanci delle aziende, quotazioni in borsa, grafici, ecc.

Prima di accedere alla banca dati, leggi che tipo di accesso è consentito:

- FREE ovvero gratuito in quanto le risorse sono disponibili online a tutti.
- RISERVATO IN RETE DI ATENEO perchè acquistato dalla nostra Università. Sono consultabili anche al di fuori della rete di Ateneo grazie ai servizi **Proxy** o **Single Sign On (Shibboleth)** riservati agli utenti istituzionali in possesso delle credenziali di Ateneo (@studenti.unipd.it e @unipd.it).

Disciplinary databases

[Statista.com](https://www.statista.com) consolidates statistical data on over 80,000 topics from more than 22,500 sources and makes it available on four platforms: German, English, French and Spanish.

[Population Index](https://www.populationindex.org/): a reference tool for the world's population literature. It presents an annotated bibliography of published books, journal-articles, working papers, and other materials on population topics – between 1986 and 2000.

[Project Euclid](https://projecteuclid.org/): its mission is to advance scholarly communication in the field of theoretical and applied mathematics and statistics. The access to some journals is free.

[MathSciNet](https://mathsci.net/): is a comprehensive database covering the world's mathematical literature since 1940. It provides Web access to the bibliographic data and reviews of mathematical research literature contained in the Mathematical Reviews Database.

Disciplinary databases

[INFORMS](#): The Institute for Operations Research and the Management Sciences. It deals with Operations Research, Management Science, Mathematics of Operations Research, etc.

[Business source complete](#): indexes full text scholarly journals and business periodicals covering all disciplines of business, including marketing, management, MIS, POM, accounting, finance and economics. Additional full text, non-journal content includes financial data, books, monographs, major reference works, book digests, conference proceedings, case studies, investment research reports, industry reports, market research reports, country reports, company profiles, SWOT analyses and more.

Statistical data in the web

Many statistical data can be found through the web, but for a reliable search you have to browse first of all websites of official sources.

For Italian statistical data use [ISTAT](#) – also in English.

For international statistical data use:

- [Eurostat](#) – European Union's Statistics Institute;
- websites of Statistics Institutes of specific countries;
- other international organizations that produce high-quality statistical data, like [OCDE](#), [UN](#)...
